DESIGN FILTRATION MICROZONE

## A LEADER IN BUILDING CLEANER ENVIRONMENTS

### CAW - Vertical Flow

Design Filtration Microzone developed the "CAW" (Clean Air Workstation) to allow any bench top to be converted into a clean environment bench top. Our unique assembly process provides for quick lead times and keeps your budget in mind. Our line of "CAW" clean benches features the highest quality material, workmanship and exclusive features found on the market today.

#### Key Features

- **Reduced energy costs**  
Helping you reduce energy costs, our "CAW" series of flow hoods uses a mere 2.16 amps (4-foot model)
- **Value**  
For the cost conscious our "CAW" series is less expensive than most other similar products
- **Portable**  
Easily moved to another location
- **Easy Installation**  
The slim profile allows for quick, easy installation through most standard doorways
- **Optional Accessories**  
We can manufacture your hood with selected options to suit your specific requirements

#### Standard Features

- High Efficiency Particulate Air (HEPA) filter, rated 99.99% efficient at 0.3 microns
