

DFMZ
DESIGN FILTRATION MICROZONE

A LEADER IN BUILDING CLEANER ENVIRONMENTS

Carbon Filtered

Our Ductless Automation Enclosures provide you the highest level of operator and environmental protection from harmful chemical fumes available today. Quality materials, components and workmanship normally associated with high-end models can be found in all of our Robotic Enclosures.

Key Features

- **Chemical Resistance**
Manufactured from chemical-resistant, seam-welded polypropylene.
- **Ergonomics**
Ergonomic design is built into every enclosure.

Standard Features

- Client-specific carbon filters for safe removal of harmful chemicals
- Quick-change carbon filters
- Energy-efficient fluorescent lighting
- Quick-change, disposable pre-filters prior to carbon filter – no tools required
- 2 Year Full Warranty (Parts & Labour)

Optional Features

- Assorted interior finishes
- GFI duplex outlets
- Collar connections for HVAC hook-ups
- Alarm packages
- Two-stage carbon filtration
