

## A LEADER IN BUILDING CLEANER ENVIRONMENTS

### DFMZ 1.0 Hardwall

The DFMZ 1.0 Hardwall features the design, performance and reliability you would expect from a high-end cleanroom with the pricing of an economical unit. Our unique assembly process allows you, the end user, to install your own cleanroom quickly and efficiently, potentially saving thousands in installation costs. Our DFMZ 1.0 cleanrooms have features not normally associated with economically priced rooms including manual sliding entrance doors, control/gauge packages and design flexibility.

#### Key Features

- **Easy Installation**  
The DFMZ 1.0 Hardwall comes pre-tagged to allow for quick and easy installation in a matter of hours.
- **Durable Structure**  
The DFMZ 1.0 Hardwall features a rigid, light-weight, anodized, aluminum frame system.
- **Design Flexibility**  
DFMZ 1.0 cleanrooms are built to suit your specific size and classification requirements. Choose the options you want.
- **Reduced Energy Costs**  
Our energy-efficient HEPA units and light fixtures help reduce energy costs associated with other cleanrooms.
- **Growth**  
As your growth in the future increases so does DFMZ 1.0. Our design allows you to easily expand and upgrade.
