A LEADER IN BUILDING CLEANER ENVIRONMENTS

LED Flat Panel Cleanroom Lights

Our NEW LED Flat Panel Cleanroom Lights are designed for locations requiring clean surfaces and maintenance-free operations. They are extremely light and easy to install thanks to their low profile. Using smart electrical technology, they are designed for use from 120-277 VAC installations.

Key Features

- Extra low profile and easy to clean
- Low energy consumption with the latest Everlight 67-21S LED chips - less than 0.5 amps with a 2' x 4' panel.
- Full light output control with optional dimmer unit
- Ultra lightweight, 2' x 4' panel is less than 14 lbs

Standard Features

- 2' x 4' and 2' x 2' sizes are in-stock with other sizes available with custom order
- White powder coated clean finish aluminum
- Perimeter frame
- 4000K colour standard, 5000K available with special order

Optional Features

- 15' power cord for plug and play
- Dimmer control
- [Emergency Back Up Kit](#) (Part # 16XM0013)
