

DFMZ
DESIGN FILTRATION MICROZONE

A LEADER IN BUILDING CLEANER ENVIRONMENTS

LP

The Design-Aire LP is the smallest model in our line of fan-filter units. The sleek design of the stainless steel housing is ideal for pharmaceutical applications requiring frequent wipe downs. This compact model, however, is no step down from our standard Design-Aire as it contains nearly all the same great features.

Key Features

- **Easy Installation**
The 10.75" height and light-weight housing of these units make them easier to slide into ceilings. The 3-prong electrical cord allows them to be plugged into standard 115V outlets.
- **HEPA Duration**
The variable speed control helps increase HEPA filter life by allowing the motor speed to be increased as the loading on the filter increases. This keeps the airflow consistent and results in fewer filter changes.
- **Energy Costs**
Each unit only uses a maximum of 1.08 amps.
- **Stainless Steel Housing**
Durable stainless steel housing has a smooth finish for easy cleaning.

Standard Features

- High Efficiency Particulate Air (HEPA) filter rated 99.99% efficient at 0.3 microns
- Uniform airflow across filter face
- Durable stainless steel housing
- Disposable/washable foam pre-filter
- Less than 56dba noise levels
- 15' power cord, 115V – no hard wiring required!
- Sizes: nominal 1'x1', 1'x 2', 1' x 3' and 1' x 4'
- 2 Year Limited Warranty

Optional Features

- Ultra Low Penetration Air (ULPA) filter rated 99.9995% efficient at 0.12 microns
- Room side replaceable HEPA filter
- Room side replaceable ULPA filter
- HVAC collar connections
- Minihelic gauge, 0-1" w.g.
- **NEW: 230V export option is now RoHS compliant**
- Reverse direction airflow
- EC motor
